Personal Details

Date of Birth : 30 October 1978
Nationality : Hungarian
Gender : Male
Marital Status : Single
Languages: Hungarian + English

Carrier Overview

I'm a freelance graphic designer with 9-10 years of commercial experience. I have experience with creative graphic and webdesign, corporate branding, desktop publishing and digital photography. Many of my projects were produced by team effort. I'm looking for a role which would allow me to expand my skills in graphic and webdesign.

RESUME/CV 2010

Educational Background

→ 1993-1998

Vasvári Pál High School of Economics

11 Gutenberg, Szeged, Hungary

→ 1998-2001

University of Szeged

1 Aradi Vértanúk tere, Szeged, Hungary

Field of Study : Informatics, information technology, computer science and programming

→ 2001-2003

University of Szeged

1 Aradi Vértanúk tere, Szeged, Hungary

Field of Study : Marketing, advertising and graphic design

Employment History/Work experiences

→ September 1999 - March 2002

Company Name : Pilgrim Studio (Szeged, Hungary)

Position : graphic and webdesigner

Responsibilities : I designed corporate identities, annual reports, leaflets, books and other printed material, working closely with clients and printers (pre-press work). I was responsible for web design and development (HTML authoring using Dreamweaver and by hand, building and maintaining web pages) working with PHP developers to ensure correct look and cross-browser compatibility.

→ March 2002 - July 2005

Company Name : Tisza Expo (Szeged, Hungary)

Position : graphic designer, webdesigner, decorator, sign-maker, exhibition organizer

Responsibilities : I was a lead designer/art director at Tisza Expo working with 3-4 other graphic designer. I provided technical support for computer systems and software, network and hardware. My work involved designing graphics, creating signs as well as managing the project from start to finish. The company organised 5-6 exhibitions in every year and my main role was to producing the promotional material (including the branding and website) for each unique projects. My responsibilities were concepting, presentation, creating initial look and directing the team.

→ March 2007 - April 2007

Company Name : Computerforce (Perth, Australia)

Position : webdesigner (part-time)

Responsibilities : I worked at Computerforce (webartdesign.com.au) only seven weeks, creating webdesign and banners.

→ April 2007 - August 2007

Company Name : MLG Realty (Perth, Australia)

Position : graphic and webdesigner

Responsibilities : My work involved producing promotional material for campaigns (full page newspaper ads, flyers, leaflets, posters and flash banners). The job involved creating internal printed material and designing-developing microsites.

→ September 2007 - July 2008

Company Name : Integrated Concept (Perth, Australia)

Position : graphic and webdesigner

Responsibilities : My role was as lead webdesigner: creating, developing and maintaining websites. I created mock-ups, templates and designed graphic elements. I was authoring, implementing and troubleshooting cross-browser HTML, CSS and JavaScript code (building templates for Joomla). I maintained and updated several websites. I also had a role as a graphic designer: producing logos, annual reports, corporate material, brochures and other graphics.

→ July 2008 - September 2010

Freelancing in Melbourne

Position : graphic and webdesigner, front-end webdeveloper, UI/UX designer

Responsibilities : My last working period was a big change for me. In the past I spent the most of my time to create mock-ups and design graphic elements. I'm still like more the creative part (design), specially to concentrate the user experience but the designer became a design-and-frontend-developer.

So now I'm more confident to handle the whole process from the first step to the end. I made and updated several websites : design-layout-wireframe, creating cross-browser HTML/CSS (mostly Joomla CMS template) and implementing JavaScript (jQuery, MooTools and ajax) and PHP code.

	Digital photography (evolving shoot skills, retouching)	
	Computer Hardware Support on PC and Mac	

Strengths

I have creative and conceptual skills. I create innovative, stylish and user-friendly websites. I pay good attention to details and user experience in my work and I have the ability to learn new skills and knowledge quickly and independently.

I am able to work to strict deadlines on multiple projects as a team member or independently. I can work confidently without supervision. I am hard working, ambitious and self-motivated.

Personal quality and interests

Design is my passion : webdesign, logos and brands, icons and illustration, typography and fonts, 3D graphics and multimedia, animation and motion design, photography, interior design...

I also like music, movies and sports such as beach volleyball, basketball, soccer and table tennis.

Future objectives and goals

I would like to develop my current skills and gain further experience in various creative fields : graphic design, webdesign and development (HTML 5, CSS 3, PHP and jQuery), animation, motion design and multimedia, typography and font design, mobile content and iphone development.

I am looking for an opportunity that promotes creativity and allows for growth. The ideal environment for me where I can design unique websites using newest technologies and trends (ajax, jQuery and UI/UX).

I'm seeking part-time or full-time employment or a freelance job.
